

I live in Stamford and work in Greenwich. My house is at the opposite side of Stamford where the school is. I can't pick my kids up from school but I can be on time at the bus stop and that means that it is a relief because I'm good with my job and kids.

We don't have any family here and the Catholic School is our light in our lives. It's a good environment for my kids, good values, education and discipline.

We know the bus drivers in the mornings and afternoons and the bus it is huge help for us. I think without it it will be almost impossible that my kids can go to Catholic School.

Thanks for take time and read my letter,

Graciela Henao
